

**VL3**

# VL3

## PRODUCT INFORMATION:

The smallest of the VL series, the VL3 LED is designed for the forklift industry to provide a low profile mast light for more effective forward lighting. However, this light is highly adaptable and can be used on a number of different material handling applications as well as trucks and cranes. The thru bolt design allows for placement of the light in a variety of locations on 12 volt machines and the lens colour options of white, red or green provide additional application choices.

EMC TESTED

Operating Temp: -40° to 75°C

IP 69K

Light Pattern: Symmetric  
Asymmetric

VIBRATION TESTED

Lens Material: Plastic

SALT SPRAY TESTED

Housing: Cast Aluminium

UL RATED OPTIONAL

Mounting Options:  
Thru Bolt

Connector: (DT04-2P) Built in
